jects (ITDP), extended coverage under nutrition programme for young children, pregnent women and nursing mothers and expansion of the coverage of the Rural Landless Employment Guarantee Programme and National Rural Employment Programme have been taken up during the current year by allocation of additional foodgrains. An off take of 2 million tonnes of foodgrains is expected under these programmes in 1986-87.

(b) Government of Maharashtra was allocated 79,900 tonnes of free additive foodgrains under NREP and 79,900 tonnes of free additive foodgrains under RLEGP for the year 1986-87 to facilitate payment of 50 percent wages in cash and 50 percent in foodgrains. The State Government have declined the allocation of free additive foodgrains under both the programmes on account of their inability to give 50 percent wage foodgrains to the workers engaged in these programmes. Since the NREP/RLEGP guidelines provide for compulsory distribution of subsidised foodgrains at the rate of 1 kg. per capita per day, the State Government has been allocated 22,900 tonnes of foodgrains for the first two quarters of 1986-87 for distribution at subsidised rates under NREP/RLEGP the Employment Guarantees Scheme (EGS) of Maharashtra is a State Scheme and no foodgrains are allocated by the Centre for this scheme.

(c) Employment generation under Rural Employment Programmes is monitored in terms of mandays and not in terms of persons benefited. The total employment generation in Maharashtra during 1986-87 up to June' 1986 is 47.37 lakh mandays. (18.20 lakh mandays under NREP and 29.17 lakh mandays under RLEGP). The state Government have not reported any utilisation of foodgrains under these programmes so far.

Drinking water for villages

1097. SHRI VITHALRAO MADHAVRAO JADHAV : Will the Minister of AGRICULTURE be pleased to state :

(a) what is the number of villages proposed to be covered for the supply of drinking water in the year 1986-87, State-wise ; and
